

i.e. Gallery Exhibition - July 2023

Artist: Josh Ryan McDonald

Show title: *TERREBONNE*

Exhibition Statement:

TERREBONNE

Josh Ryan McDonald is a Seattle-based painter in an ongoing attempt to tell a story through his own created symbolism. In his upcoming exhibition, *TERREBONNE* showcases a series of oil and wax paintings of various sizes. Each one a venture of the internal dialogue and abstracted aesthetic of the artist's transcending mind. A reminiscent study of both the natural and sociological structure of a high desert landscape, the colors and texture of a mid-century ranch house, and the creatures and flora that inhabit this environment. Josh directs each scene through a geometric lens, while filtering through the small realisms of this disrupted inscape. *TERREBONNE* opens July 1st at i.e. Gallery.
